

NOTES FOR DDCI

7 December 1963

[Redacted]

25X1
letter

2. Don Chamberlain reports that SecDef on 4 December
signed off on a modified version of the [redacted] augmentation
proposal. [redacted] was not consulted. DIA prepared and supported
the proposal. Having seen it for the first time [redacted] considers
it a poor job and unacceptable in accomplishing even minimum
expansion. [redacted] is devising a reclama. A copy of Chamberlain's
report on this matter went to the DCI. *Let me see it -* ✓

25X1

3. You have been so occupied with other matters in the last
few days that I have tried to spare you a number of papers (although
you wouldn't know it by looking at the size of your folders). In case
you are interested I am holding copies of various info papers respon-
sive to recent DCI requests.

-- OCI Memo on the [redacted] arms race. 25X1

-- ONE Memo on the [redacted] and another memo on [redacted] 25X1
both prepared for DCI use at the Standing Group Meeting Friday.

-- I also have a copy of JCS and State talking papers on [redacted] 25X1

-- The South Vietnam Task Force memo (17 pages long!) on
the present situation in SVN and recommended courses of
action prepared for DCI use at a Friday afternoon meeting
of the "Honolulu principals". *me see*

-- A DD/I memo on the status of Soviet agriculture with particular
reference to the New Lands failures.

4. Because of the light weight of next week's USIB Agenda, we
are arranging for you and the DDCI and Ray Cline and any other USIB
principals who missed it first time around to hear Rufe Taylor hold
forth on the very sensitive briefing on Soviet submarines. ✓
